

Multiple pages per sheet

To print multiple pages per sheet, please do not use the button “Properties”.

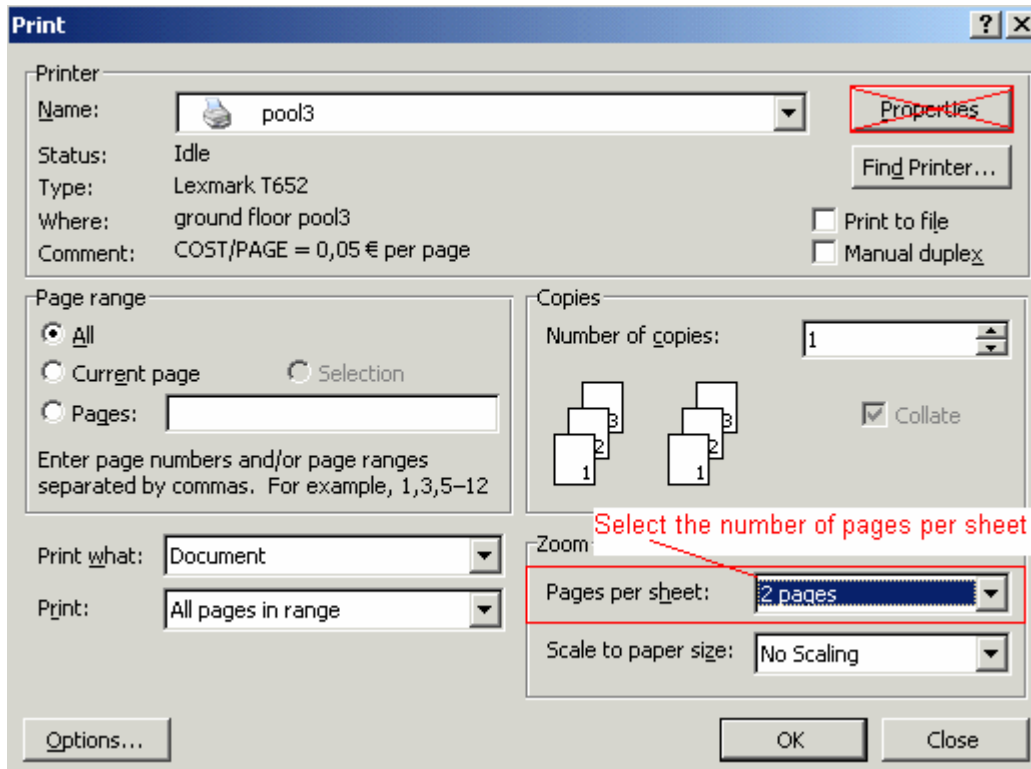

pdf - documents

You can find the required function in the red highlighted box “Page handling”.

1. Select “Multiple pages per sheet” in the field “Page scaling”.
2. Select the number of pages per sheet in the next field.
3. Select the page order in the next field.
4. Check the box “Auto-Rotate Pages” if you wish.
