1st European MBA Career Fair

26th April 2010 - Berlin

Our Concept

The European MBA Career Fair: Six business schools, one concept

Highly qualified employees are the asset and future of every company. The European MBA Career Fair offers the ideal environment in which to meet over 290 handpicked young professionals. The 1st European MBA Career Fair originates from the MBA Career Fair that was taking place in April 2009 for the sixth time. In 2010 the fair will be even more international and is an excellent chance for companies to recruit international MBA graduates.

World-class management education

The European MBA Career Fair is hosted by the following business schools:

- Audencia Nantes - School of Management, France,
- GISMA Business School, Germany,
- Goethe Business School, Germany,
- HHL - Leipzig Graduate School of Management, Germany,
- MIP Politecnico di Milano, Italy,
- Warwick Business School, UK.

A high standard of quality unites the MBA programs of the six participating business schools. All are AACSB and/or EQUIS accredited and operate under the trademark of these internationally respected accrediting agencies. This provides impartial scrutiny regarding the quality of each institution's program according to the strictest criteria and guarantees management education of world-class repute.

International and highly skilled MBA graduates

More than 290 different personalities, career paths and backgrounds with diverse cultural origins and international experience - but the graduates of our MBA programs have one factor in common. They have all been subjected to a demanding selection process, they have attained at least one first degree and they have six years of work experience on average. They are broadening their management knowledge through their MBA studies and will qualify themselves as future managers of international distinction.

The MBA programs focus on conveying academically grounded current business knowledge. A practical orientation, an international character and promoting intercultural thought and actions are also elements deeply anchored in the training schedule of the programs. In addition, all of the MBA programs are taught in English.

Our Graduates

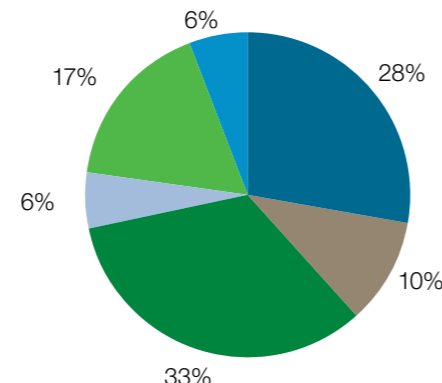

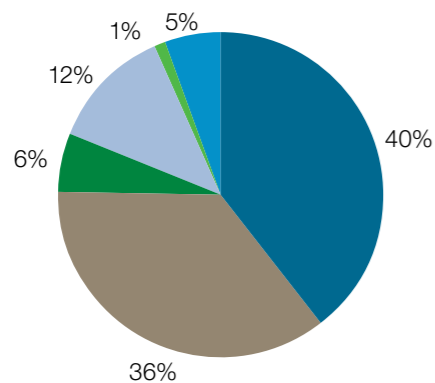

Number of students: 290
Average age: 29

- South America
- North America
- Africa

Your Event

The European MBA Career Fair: Everyone stands to gain

We guarantee you a day filled with exciting contacts and discussions. The European MBA Career Fair offers you a wide range of ways to meet our students. Take advantage of the different opportunities: introduce the students to your company, your philosophy and your way of work. Inspire our students to work for your organization!

You will receive a short profile of all participating students before the event. Based on this first impression you can select interesting candidates for your company.

Contact can be established in the following ways:

1. Workshops

During the workshops your company will be invited to present a case study which will be dealt with by a group of students. During this session you will be

given an insight into each individual's knowledge, method of working and capacity for teamwork. According to your requirements and the interests of our graduates, the business schools will allocate the participants to the workshops.

2. Interviews

You can select candidates for interviews. The business schools will organize the interviews for you. Before the European MBA Career Fair, you will receive your company interview schedule.

3. Presentations

During the afternoon, you have the opportunity to introduce your company as a potential employer or to hold a presentation on a relevant issue.

4. Forum

The open forum takes place in the afternoon at the same time as the company presentations and the interviews. You may interact with the participants at your stand and distribute information material.

An overview of the day:

	Company A	Company B	Company C	Company D	Company E
