

First placement statistics for HHL's MSc program

In summer 2008, HHL's Master of Science in Management program (MSc) graduated its first students. Their initial placement pattern is quite similar to that of the Diploma students in previous years. Consulting continues to be the most attractive employer branch with 46.7 %.

However, the industrial sector was the second most popular choice among graduates of MSc1, with 26.7 % starting their career in this area. With 13.3 % each, the banking and financial sector shared third place with start-ups and family businesses.
