

New Program Start: March!

Part-time Master Program in Management (M.Sc.)

Updated curriculum and new course schedule

At HHL we update our curriculum continuously according to the needs of the global employment market and our prospective students. We are offering a state-of-the-art program which takes your time constraints and job responsibilities into consideration. The updated innovative part-time M.Sc. program at HHL is perfectly structured to meet your individual needs and your professional schedule.

HHL's innovative part-time M.Sc. program is designed as a 24 to 30 months program with 90 ECTS. While the core modules are offered during terms 1 to 3, students can choose among the elective modules in terms 4 to 7. Our thesis requirement is to be fulfilled during terms 7 to 8.

The curriculum is structured into three major parts:

- **Core Modules** that familiarize students with advanced academic knowledge in the area of business management and economics combined with core fields to strengthen the participants' soft skills (e.g. Negotiation and Problem Solving & Communication).
- **Elective Modules** that combine different functional perspectives and widen knowledge in an integrated way. This approach ensures that students gain expertise in their personal fields of interest and learn to select and combine a variety of research instruments and management tools. Students need to choose 5 out of 6 elective modules.
- **Master thesis** as a cornerstone of the academic program and the final stage in the part-time M.Sc. program. In the written paper students will investigate a subject with a conceptual, theoretical or empirical focus based on the input from the study modules.
