The HHL student body is very diverse and international. Part-time MBA students benefit from a valuable network of our high-profile company and alumni contacts, e.g.:

HHL Leipzig Graduate School of Management

Founded in 1898, HHL is one of the very first business schools in the world. It ranks amongst the leading international business schools. The goal of the university-level institution is to educate effective, responsible and entrepreneurially minded leaders. In addition to HHL's international focus, a combination of theory and practice plays a key role in its educational approach. HHL stands out for its excellent teaching, its clear research orientation, its effective knowledge transfer into practice, as well as its outstanding student services.

Refreshment, development and modernization. Those are the key words to describe my part-time MBA studies at HHL. An innovative curriculum and the diverse wealth of experience from my fellow students brought my own knowledge up-to-date, while at the same time opening up new areas of thought for me. After my studies I was able to move into roles of greater responsibility and leadership. At HHL I made networks and friends for life.
