The HHL footprint is a strategic, visionary, and very ethical approach to business that was the basis for the extraordinary development of my career and company. Doing the MBA program was the best investment I ever made. It gave me an extra boost of confidence in what I do, structured and enriched my knowledge and organizational skills, and inspired me with new insights from other colleagues. To sum it up: HHL made me excel!

Career development embedded in the MBA curriculum

„Me as a Leader“ is a module that revolves entirely around identifying your strengths, finding your purpose, and mapping out your career growth plan.

In order to do an active career management it is crucial to know who you are. We want to guide you to find your unique potential to attain a rewarding and a fulfilling career.

At HHL, I realized that there are three levels we learn on in our MBA studies: first, the contents of the lectures; second, the experiences of fellow students, which we share in our discussions; and third, that you learn a lot about yourself. By constantly pushing yourself as close as possible to your performance limits, you learn a great deal about how you deal with stress and how to set the right priorities and find your purpose.
